

Bird Banter treat holder

The material you need:

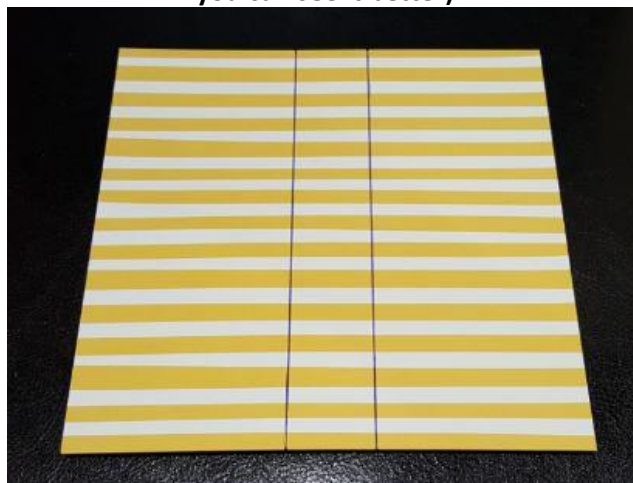

- Tutti-frutti 6" x 6" Designer Series Paper(DSP) (145606)
- 1/4" Double-Stitched Ribbon-Daffodil Delight (144116)
- Whisper White card stock 3"x 2 1/4" (100730)
- Real Red scrap for the little heart (102482)
- Rhinestone Basic Jewels (144220)
- Stampin Dimensionals (104430)

The tools you need:

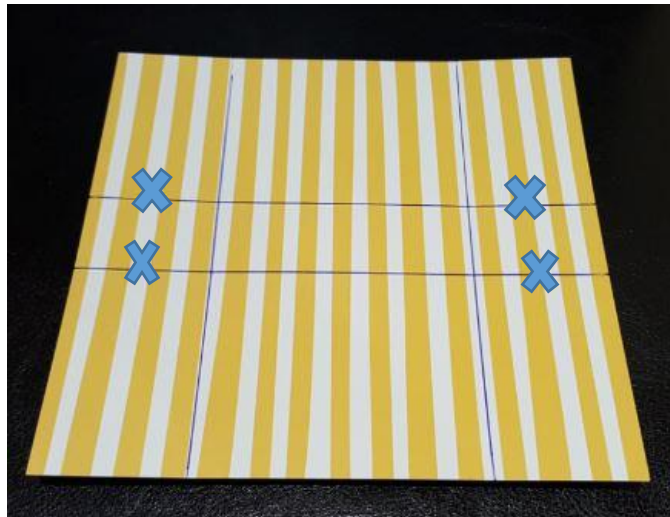

- Bird Banter stamp set (145852)
- Memento Pad (132708)
- Stitched Shapes framelits (145372)
- 1/8" Handheld Circle punch (134365)
- Adhesive
- Clear Blocks
- Stampin Blends: Light Bermuda Bay (144580), Light Old Olive (144574)
Light Daffodil Delight (144586), Light Pumpkin Pie (144578)

Steps:

- 1) Take one piece of 6x6 DSP from the pack and score 2 1/2" from both sides (I use the pen to draw the lines so you can see it better)

2) Turn the paper 90 degrees and score 1 1/2" from both sides

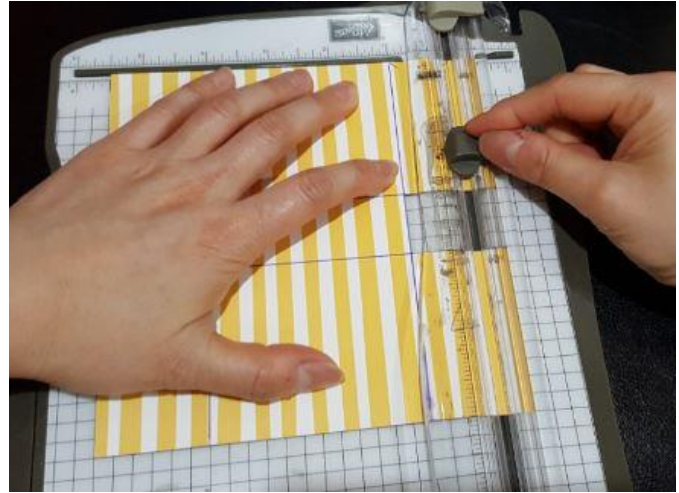

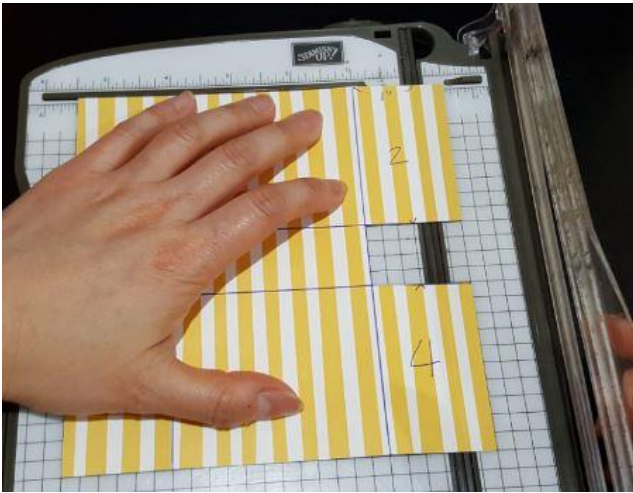

3) Cut the shorter sides as I marked "X"

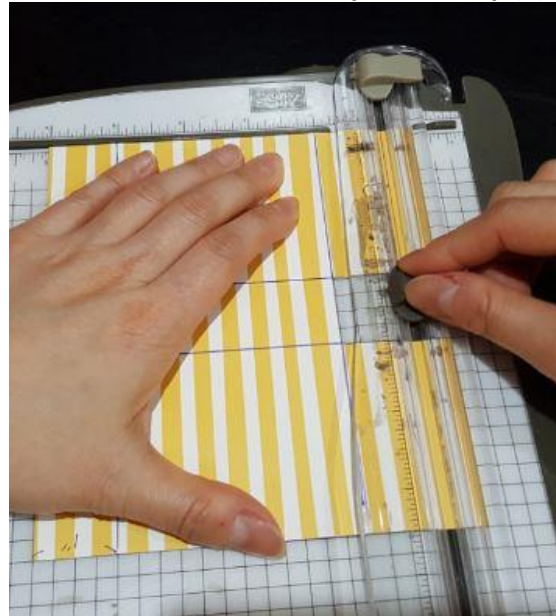

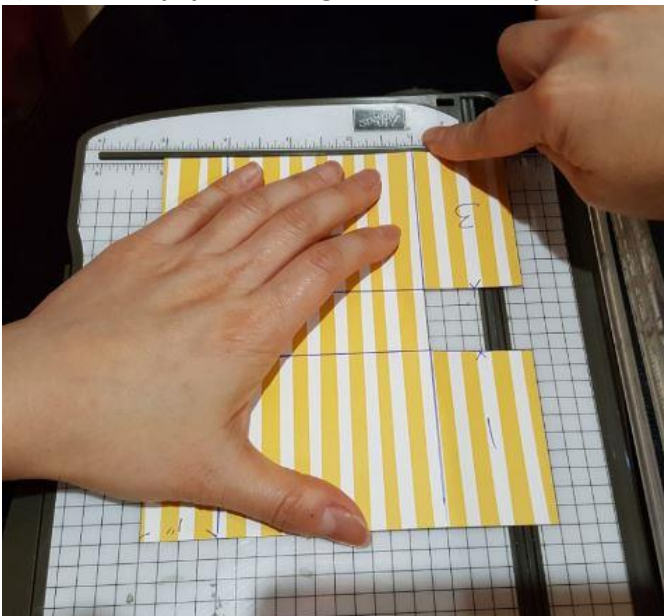

4) Fold the two small center flaps under the paper

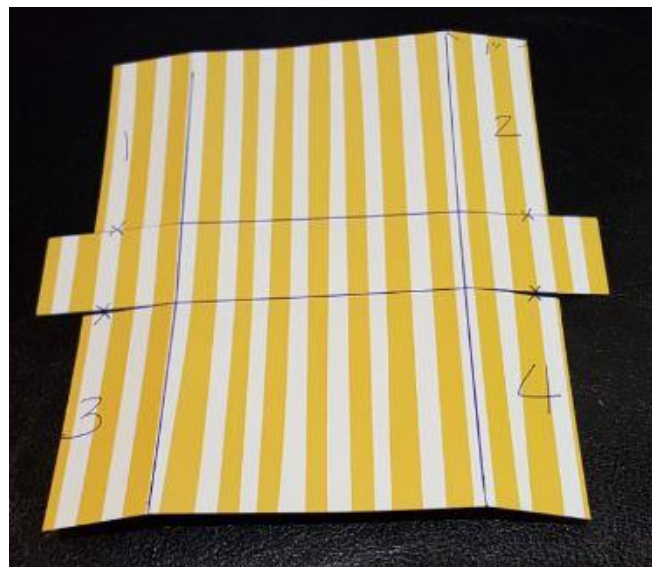

5) Cut flaps 2 and 4 one inch from the center line as displayed on the picture

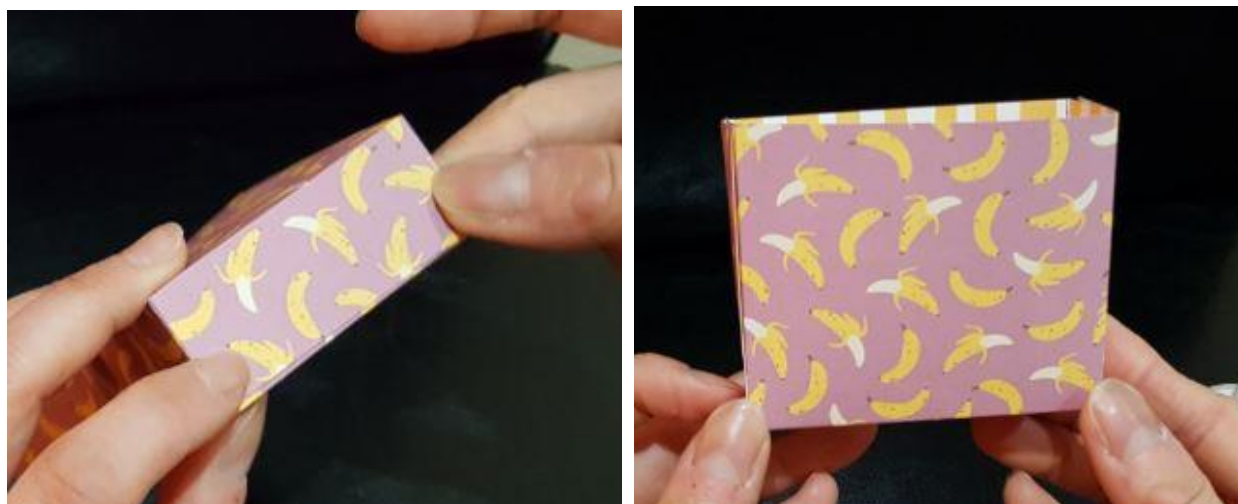

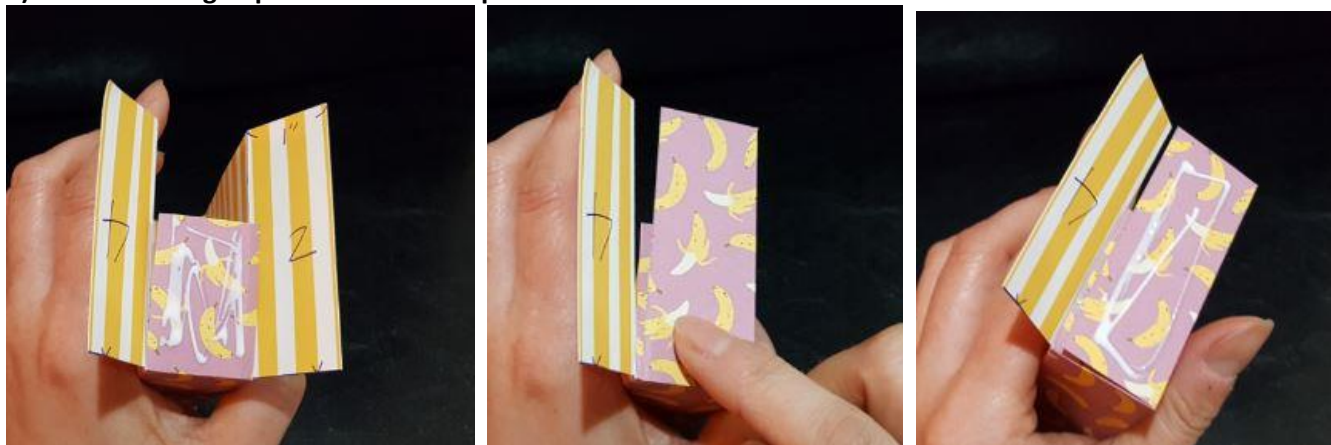

6) Turn the paper 180 degrees. Cut the flaps 1 and 3 one inch from the center line, just like step (5)

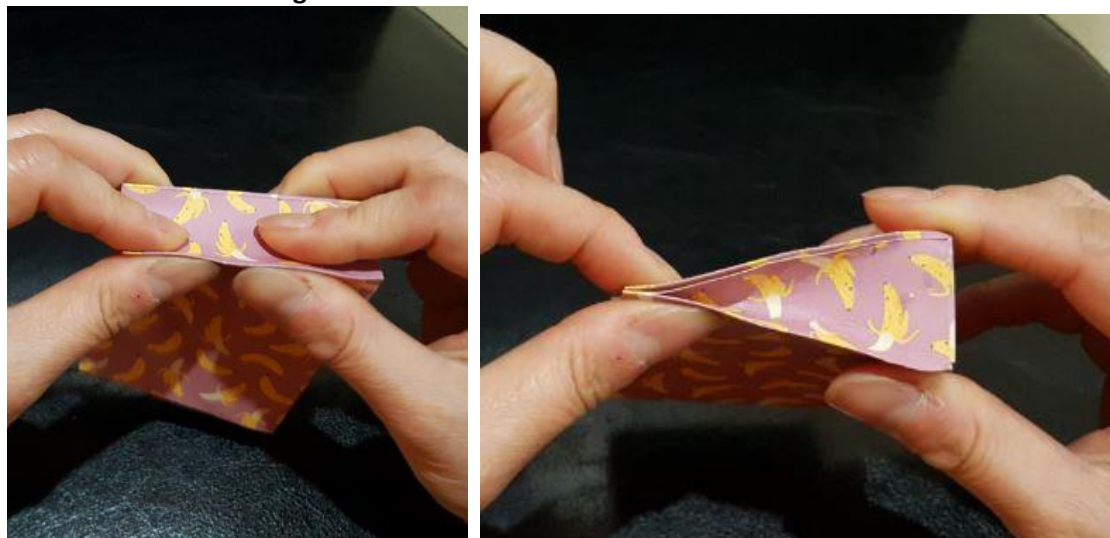

7) The paper looks like this

8) Glue the long flaps to the short shape for both sides.

9) Pinch the sides of the box together on both sides.

10) Use the hole punch to punch the holes on the top of the box.

11) Put the candies or any treat in the box, don't fill the bag too full. Put the ribbon through the two holes to tie a bow.

12) Decorate the bag with the Bird Banter tag. I have the retired small heart punch so I use the scrap Real Red paper to punch out the heart. If you do not have the small heart punch, the Bird Banter stamp set has a little heart too. You can stamp it and color it red. I also use the Stampin Dimensionals to attached the tag on the treat bag.

Here are more treat bags with difference colors.
